

## **SFY 2015 Prevention Services Funding Opportunity**

We are two weeks away from the release of ODP's Funding Opportunity for State Fiscal Year 2015 Substance Abuse Prevention Services Grants.

**NEW for SFY 2015** – While the general process for funding will be similar to the process used in recent years, there are two notable additions: 1) an online application system; and, 2) the introduction/incorporation of the Strategic Prevention Framework (SPF) 5-step planning model. Links and additional information about these changes will follow.

**Regional Needs Assessments for SFY 2015 will be available soon** – A listing of available data sources to reference while completing your application, including Benchmark's updated Regional Substance Abuse Prevention Strategic Plans and Substance Abuse Prevention Needs Assessments, will be available with the release of the Funding Opportunity announcement on February 1, 2014.

**SFY 2015 Funding Application Process & Timeline** - As in the past, ODP plans to support the evidence-based programs, training & materials, travel for program delivery and the other expenses that it takes to make programs successful. Please contact [Marianne.King@odp.idaho.gov](mailto:Marianne.King@odp.idaho.gov) if you have questions about particular budget items.
